

Forgive me if I am mistaken but I thought that airwaves belonged TO THE PEOPLE. I have had to stop expecting "regular" TV to have real news and public affairs. I watch it only to see mindnumbing drivel when I am unable to engage in any meaningful activity. You want to give copoartions MORE resources and less rules???

HAVE YOU LOST YOUR MIND? I am this close to packing up my TV and disconnecting my cable because the air is full of unmitigated CRAP. I was listening to the hearings this morning on Pacifica Network, thank god, otherwise I would not even have known this was going on. A representative of Viacom (I think) said the reason they did not cover the hearings was because someone would accuse them of being biased. Does he think we are all like our president - "C" students idiots??

This one aspect has got to show you the problem. The hearings could threaten the major corps SO ... they don't tell the public about it. Amazing, uh? I SAY NO to more consolidation of media ownership. I am SICK of Disney, Icecapades and babies in wells on the morining news when the world is going to hell in a handbasket. I am sick of media cheerleading the Government and never bothreing to look past the press releases they are handed. Put a big FAT check mark in colum for THE PEOPLE not for the big business.
